Welcome

Welcome to the start of semester 1, 2009. We hope you are as excited about the semester as we are! This semester promises to be as action packed as the last with many exciting things happening across the degree and around campus. We will update you regularly on news and events via this newsletter.

The Environments and Design Student Centre is open 8.45am – 5.30pm Monday to Thursday and 8.45am – 5.00pm Friday.

1st week tutorials

Please be aware that all first year subjects for Environments (i.e. Natural, Reshaping, Constructing, Designing, Governing and Virtual) all have tutorials during the first week of semester.

All students should check at their first lecture to see if there are tutorial/prac/studio classes on in the first week of semester.

Timetabling & Alloc8

There are a number of students who may have seen their timetable changed in the Alloc8 system over the past week. This has been due to a number of factors that include class size limitations, the need to relocate classes and as additional tutorials have been released to cater for demand.

Students can move their tutorial/studio/prac times if there is still space in the tutorial they are trying to move into. Please come to your Student Centre is you are unsure of how to do this.

The only exceptions where students may be moved into a full tutorial is for medical, religious or childcare reasons. Unfortunately wanting to have all your classes on the one day so you can work is not something that can be accommodated equitably for all students. Thus you are expected to turn up to your allocated tutorial.

All students need to check their timetables regularly as they are subject to change as students continue to settle on their subject selection. It is impossible for us to accurately predict which subjects students will select and we sometimes need to make changes to accommodate your choices.

Student Cards

Students who have yet to collect their student cards will now be able to do so from the Student Centre. Please note that you must have a confirmed enrolment in order to do so.
\textit{ENVI student society}

Envi regret that the Victorian Bushfires forced the cancelation of the Orientation week camp. Please stay tuned for updates regarding the potential rescheduling.

\textit{Medical Forms}

It is important that all student who have not already returned the yellow medical forms to the Student Centre, do so as soon as possible. Those who did not attend the Course Welcome session on Wednesday 25\textsuperscript{th}, will need to view the presentation via the website at http://www.abp.unimelb.edu.au/ehs/off-campus-activities/

\textit{LMS}

Please note that if you change your subject selection through your portal it will take 24 hours to be approved and will take another 1 – 3 days for you to get LMS access. If you still do not have access after this period of time please contact your Student Centre to resolve.

\textit{Course Readers}

Please note that not all subjects use Course Readers. It is recommended you check details on the LMS about what is required for your subjects and it is critical you attend the lectures for your subjects to get full information.

\textit{AIRPORT}

The following website has been developed for Bachelor of Environments students to help support their transition into the course. We encourage you to check it out: https://airport.unimelb.edu.au/environments/

\textit{Back copies of this newsletter will be available through the LMS for each of your Environments subjects under the Resources link on the navigation bar.}
